

WHERE NATURE AND SPORT COME TOGETHER

For a small country, Slovenia sure knows how to pack a punch. (Times Series)

Few places in Europe bring together such a remarkable variety of landscapes and experiences so effortlessly as Slovenia. From Alpine peaks and rolling vineyards to forests, thermal springs and the Adriatic coast, the country offers **a natural setting for movement, adventure and regeneration.**

Recognised as **a global leader in sustainable tourism**, Slovenia provides ideal conditions for **year-round outdoor experiences**. Visitors can cycle, hike, ski, climb, enjoy water sports or simply slow down in nature – often combining several completely different experiences in a single day.

This close relationship with the outdoors is also reflected in **Slovenia's exceptional sporting success**. The country has produced world-class athletes across cycling, climbing, basketball, skiing, football and winter sports. Their achievements reflect qualities deeply rooted in Slovenian life: **determination, resilience and a strong connection to nature.**

The Slovenian Tourist Board works with leading athletes who share Slovenia's story with audiences around the world. Among them are **Luka Dončić, Janja Garnbret, Primož Roglič** and **Tadej Pogačar**, as well as ski jumping champion **Domen Prevc**.

This autumn, Slovenia will further strengthen its reputation as a host of major sporting events by welcoming **the European Cycling Championships** to its scenic roads. The passionate yet welcoming atmosphere will give visitors the opportunity to experience sport not only as a spectacle, but as a shared expression of Slovenia's national spirit. ❤️

Discover exciting active adventures in Slovenia
